

Y9 GRPAHICS HOMEWORK: TOOLS & TECHNIQUES

1) Draw a neat line from the name of the tool or joining method to the correct picture of it.

Split pin	Glue stick	Cutting mat	Scissors	Safety ruler	Double-sided tape	Craft knife
-----------	------------	-------------	----------	--------------	-------------------	-------------

2) The craft knife could be tricky if someone had not used one before. What 4 tips would you give them so they can use it accurately and safely?

1.
2.
3.
4.

3) Can you link the type of **joining method** to the **reason**?

- | | |
|----------------------|---|
| 1. Double-sided tape | Joins two flat surfaces but still allows them to spin. |
| 2. Glue stick | Gives an instant, permanent hidden join. |
| 3. Split pin | Very safe, quick and easy way to join two paper surfaces. |

4) You have the choice of using either 350µm or 160 µm thick card to make a celebration card with a moving part. Which one would you choose? Give 2 reasons why you would choose this material.
(There's no right or wrong answer)

I would choose the because
